## Credits

### Lead Editor

Ben Renow-Clarke

### Production Editor

Katie Stence

### Technical Reviewers

Paul Milbourne, Darren Richardson

### Compositors

Dina Quan and Patrick Cunningham

### Editorial Board

Clay Andres, Steve Anglin, Mark Beckner, Ewan Buckingham,  
Tony Campbell, Gary Cornell, Jonathan Gennick,  
Michelle Lowman, Matthew Moodie, Jeffrey Pepper,  
Frank Pohlmann, Ben Renow-Clarke, Dominic Shakeshaft,  
Matt Wade, Tom Welsh

### Proofreader

Linda Seifert

### Indexer

Carol Burbo

### Project Manager

Richard Dal Porto

### Cover Image Designer

Corné van Dooren

### Copy Editors

Liz Welch, Nancy Sixsmith

### Interior and Cover Designer

Kurt Krames

### Associate Production Director

Kari Brooks-Copony

### Manufacturing

Director Tom Debolski

# CONTENTS AT A GLANCE

---

<b>About the Authors</b> .....	<b>xv</b>
<b>About the Cover Image Designer</b> .....	<b>xvii</b>
<b>Layout Conventions</b> .....	<b>xix</b>
Chapter 1 <b>GETTING STARTED WITH ACTIONSCRIPT 3.0</b> .....	<b>1</b>
Chapter 2 <b>ACTIONSCRIPT 3.0 FUNDAMENTALS</b> .....	<b>23</b>
Chapter 3 <b>OBJECTS AND CLASSES</b> .....	<b>69</b>
Chapter 4 <b>WORKING WITH THE DISPLAY</b> .....	<b>107</b>
Chapter 5 <b>CREATING VECTOR GRAPHICS WITH THE DRAWING API</b> .....	<b>163</b>
Chapter 6 <b>USER INTERACTION AND MORE WITH EVENTS</b> .....	<b>203</b>
Chapter 7 <b>WORKING WITH VIDEO</b> .....	<b>243</b>
Chapter 8 <b>USING AUDIO</b> .....	<b>301</b>
Chapter 9 <b>WORKING WITH COMPONENTS</b> .....	<b>355</b>
Chapter 10 <b>REGULAR EXPRESSIONS</b> .....	<b>405</b>
Chapter 11 <b>USING XML</b> .....	<b>431</b>
Chapter 12 <b>CASE STUDY: CREATING A DYNAMIC IMAGE VIEWER</b> .....	<b>449</b>

# CONTENTS

---

<b>About the Authors</b> .....	<b>xv</b>
<b>About the Cover Image Designer</b> .....	<b>xvii</b>
<b>Layout Conventions</b> .....	<b>xix</b>
<b>Chapter 1 GETTING STARTED WITH ACTIONSCRIPT 3.0</b> .....	<b>1</b>
A brief history of ActionScript .....	2
The rise of ActionScript 3.0 .....	2
ActionScript and object-oriented programming .....	4
The development process .....	4
Organizing your files .....	7
Adding ActionScript to your projects .....	8
Placing code on the timeline .....	8
Importing code from an external file .....	10
Specifying a document class .....	12
Linking library assets to external classes .....	13
Bouncing balls .....	15
Creating the Flash file .....	16
Creating the Ball class .....	17
Adding more balls .....	19
ActionScript in action .....	21
Summary .....	21
<b>Chapter 2 ACTIONSCRIPT 3.0 FUNDAMENTALS</b> .....	<b>23</b>
Statements and expressions .....	24
Introducing variables .....	25
Assigning a value to a variable .....	25
Retrieving the value of a variable .....	26
Naming your variables .....	29
Understanding data types .....	30
Boolean data type .....	31
Numeric data types .....	31
Using constants .....	33

---

Performing operations	34
Arithmetic operators	34
Specifying precedence	35
String operations	36
Unary operations	36
Introducing arrays	37
Manipulating arrays	40
Making decisions	41
Introducing the if statement	41
Forming Boolean expressions	43
Booleans in conditionals	44
Using logical operators	46
Looping the loop	47
The while loop	47
The do . . . while loop	50
The for loop	51
Looping through an array	52
More for loops	53
Breaking out of a loop	53
Introducing functions	54
Creating a function	55
Returning a value from a function	56
Using function parameters	58
Providing a default value for function parameters	59
Allowing for variable parameters	60
Passing values and references	61
Function scope	63
Commenting your code	64
Bad vs. good comments	65
Commenting for documentation	66
Summary	67

## Chapter 3 **OBJECTS AND CLASSES** . . . . . **69**

iPod analogy	70
Working with objects	71
Creating objects using the new operator	71
Accessing properties and calling methods	72
Copying objects	73
Casting objects to a type	74
The Object object	76
Iterating over objects	78
For in loop	78
For each loop	78
Creating your first class	80
Choosing suitable names for your classes	81
Adding properties	82

Adding methods	84
Initializing your objects with a constructor method	87
Controlling access to properties and methods	89
Adding getter/setter methods	91
Creating read-only properties with getter methods	94
Static properties and methods	95
Taking advantage of inheritance	96
Overriding methods of the base class	99
Using packages to group your classes	101
Naming your packages	101
Importing a class from a package	103
Importing all classes in a given package	103
Resolving naming conflicts among imported classes	104
Removing dependency on timeline code	104
Summary	104

## Chapter 4 **WORKING WITH THE DISPLAY** ..... 107

Introducing the display list	108
Working with display objects	110
Manipulating display objects	114
Managing depth	119
Discovering the depth of objects	120
Manipulating the depth of objects	122
Swapping depths	124
Creating new display objects	126
Removing display objects from the display list	127
Specifying blend modes	128
Working with filters	130
Applying a filter to a display object	131
Applying filters in a specific order	136
Making changes to an existing filter	137
Removing an existing filter	141
Introducing the advanced filters	143
Accessing the stage	145
Using Stage properties	145
Making a movie full screen	146
Using Library resources	150
Loading from external files	153
Loading an external asset	153
Manipulating the loaded asset	156
Making things move	156
Copying animation from the timeline	156
Creating the animation	157
Copying the animation code	158
Animating other properties	159
Summary	160

---

## Chapter 5 **CREATING VECTOR GRAPHICS WITH THE DRAWING API** ..... 163

Why we need a drawing API .....	163
Understanding the drawing API .....	166
Setting up Mr. Smiley .....	166
Drawing lines .....	168
Creating straight lines .....	168
Controlling the line style .....	171
Drawing curved lines .....	174
Drawing and filling shapes .....	175
Drawing primitive shapes .....	175
Creating custom shapes .....	179
Filling shapes with a solid color .....	180
Filling shapes with color gradients .....	183
Simplifying the code .....	189
Creating gradient line styles .....	191
Flash 3D .....	197
Summary .....	201

## Chapter 6 **USER INTERACTION AND MORE WITH EVENTS** ..... 203

Understanding events .....	204
Listening for an event .....	205
Removing an event listener .....	206
Naming your event listener methods .....	207
Creating a simple drawing application .....	207
Setting up the canvas .....	207
Adding event listeners .....	209
Refreshing the screen .....	213
Using one event listener for multiple objects .....	214
Using events with the display list .....	214
Handling single and double mouse clicks .....	214
Handling mouse hover states .....	218
Responding to a rollover event .....	219
Making colors constants .....	223
Handling key presses .....	224
Setting up a keyboard drawing application .....	225
Handling crosshair movement .....	227
Preventing an event's default action .....	233
Capturing and bubbling: the event flow .....	237
Listening for events in the bubble phase .....	238
Listening for events in the capture phase .....	239
Stopping an event from propagating .....	240
Removing capture phase event listeners .....	241
Summary .....	241

---

## Chapter 7 **WORKING WITH VIDEO** ..... 243

Video on the modern Web .....	243
The video experience .....	244
Where ActionScript comes in .....	245
Encoding your video .....	245
Capturing your video .....	247
Using the Flash Video Encoder .....	248
Delivering your video .....	252
Using ActionScript to play videos .....	256
Managing connections with the NetConnection class .....	256
Loading and controlling video with the NetStream class .....	257
Buffering your video .....	259
Playing your video .....	259
Pausing your video .....	259
Stopping your video .....	259
Fast-forwarding and rewinding your video .....	260
Creating video objects with the Video class .....	261
Creating camera objects with the Camera class .....	262
Handling video events .....	265
Mouse events .....	265
Status events .....	265
Metadata events .....	267
Cue point events .....	269
Building a video player .....	272
Setting up the project .....	273
Creating the Main.as file .....	274
Creating the Videos.as file .....	275
Controlling the video player .....	278
Setting up the status text field .....	278
Implementing the loading progress bar .....	279
Creating the playhead bar .....	280
Handling the metadata .....	281
Handling cue points .....	282
Controlling the video on the stage .....	283
Adding button functionality .....	284
Finishing the Videos.as class .....	290
Creating a custom event .....	297
Summary .....	298

## Chapter 8 **USING AUDIO** ..... 301

Importing and converting sound files .....	302
Using iTunes .....	302
Converting to MP3 format .....	303
Adding ID3 information .....	303
Using Soundbooth .....	305

---

Using ActionScript to play sound	305
Accessing sound files with the Sound class	305
Controlling sound channels with the SoundChannel class	306
Doing security checks with the SoundLoaderContext class	307
Controlling volume and panning with the SoundTransform class	307
Controlling sounds globally with the SoundMixer class	308
Getting ID3 data with the ID3Info class	309
Using a microphone with the Microphone class	309
Understanding the basics of a sound player application	310
Preloading a buffer	311
Pausing sound	312
Stopping sound	313
Fast-forwarding and rewinding sound	314
Controlling volume	315
Controlling panning	316
Displaying the sound spectrum	316
Handling ID3 Tags	319
Building a sound player	321
Setting up the project	322
Creating the Main.as file	323
Creating the Sounds.as file	325
Loading the sound file	327
Buffering sound	327
Adding display items	328
Creating the loading progress bar	328
Creating the playhead bar	329
Adding the sound spectrum	331
Displaying ID3 track metadata	332
Controlling the audio as it plays	333
Adding button functionality	334
Handling button events	339
Controlling the sound volume and panning	343
Creating the custom event class	352
Summary	353

## Chapter 9 **WORKING WITH COMPONENTS** **355**

Just what are components?	356
Accessing your components	357
Adjusting component parameters	358
Benefits of working with components	362
Exploring the Flash component framework	362
UI components	363
Video components	365
Going behind the scenes	366
Finding the files	368
Components directory	369
Component Source directory	370

Scripting interaction .....	374
Adding the components .....	374
Adding the ActionScript .....	375
Styling and skinning .....	381
Styling components .....	381
Setting up for changing styles .....	381
Setting styles for all components .....	382
Setting a style for all instances of a component .....	383
Setting the style for a single instance of a component .....	383
Skinning using the timeline .....	384
Skinning using classes .....	387
Creating a skin for the button's up state .....	388
Creating skins for the button's other states .....	389
Associating the skins with the buttons .....	390
Creating components from scratch .....	392
Creating the widget .....	392
Writing the component code .....	393
Handling events .....	394
Rotating the dial .....	395
Getting and setting dial values .....	397
Adding metatags .....	399
Turning the symbol into a component .....	400
Testing the component .....	401
Using third-party components .....	403
Summary .....	403

## Chapter 10 **REGULAR EXPRESSIONS** ..... **405**

Why you need regular expressions .....	406
Introducing the RegExp class .....	408
Anatomy of a regular expression pattern .....	409
Introducing metacharacters .....	410
Using anchors to restrict the position of matches .....	411
Using start-of-string anchors .....	411
Using end-of-string anchors .....	411
Combining anchors .....	411
Providing alternatives with alternation .....	412
Using character classes and character ranges .....	412
Matching any character using the dot metacharacter .....	413
Matching a number of occurrences using quantifiers .....	414
Matching zero or one occurrence .....	414
Matching zero or more occurrences .....	415
Matching one or more occurrences .....	415
How to prevent greedy quantifiers .....	415
Being more specific with bounds .....	416
Grouping patterns .....	417
Accessing matched strings with backreferences .....	418
Using backreferences with the String.replace() method .....	420
Using backreferences after the pattern has been matched .....	420

Understanding the e-mail regular expression pattern	421
Changing regular expression behavior with modifiers	422
Using the case-insensitive modifier	423
Using the global modifier	424
Using the multiline modifier	425
Using the dotall modifier	425
Using the extended modifier	426
Using variables to build a regular expression	426
Useful regular expressions	427
Regular expression resources	427
Summary	428
<b>Chapter 11 USING XML</b>	<b>431</b>
Understanding XML and E4X	432
XML document components	432
Root node	432
Elements	433
Text nodes	433
E4X	433
Attributes	434
Accessing an XML file	434
Creating an XML object	434
Loading an XML file	434
Getting XML from a remote source	436
Reading the XML	436
Reading the root node	437
Reading elements in an XML tree	437
Reading an XML element's attributes	438
Searching XML	439
Searching for an attribute or element at any level	440
Reading text nodes	442
Modifying XML	443
Adding elements to an XML object	443
Removing elements and attributes from an XML object	446
Summary	446
<b>Chapter 12 CASE STUDY: CREATING A DYNAMIC IMAGE VIEWER</b>	<b>449</b>
An overview of the image viewer	450
Laying out the interface	451
Creating the document class	456
Loading image data	461
Loading the XML	463
Parsing the data	464
Accessing the data	466

Displaying images .....	468
Handling image selection .....	470
Scaling an image .....	472
Adding graphic enhancements .....	472
Changing the image label .....	473
Improving the thumbnail layout .....	473
Adding drop shadows .....	475
Creating an animated transition .....	477
Summary .....	481

## Chapter 13 **GETTING STARTED WITH FLEX** ..... **485**

Introducing Flex .....	486
Understanding rich Internet applications .....	486
Meet the (Flex) family .....	486
The Flex framework .....	487
The Flash Player .....	487
MXML .....	487
The Flex Software Development Kit .....	488
Flex Builder .....	488
Adobe LiveCycle DS .....	488
Adobe AIR .....	489
Getting started with the Flex SDK .....	489
Installing the Flex SDK .....	489
Windows XP/Vista .....	490
Mac OS X .....	492
Linux .....	492
Finding a suitable editor .....	492
Building your first Flex application .....	492
Getting started with Flex Builder .....	496
Understanding the Flex Builder interface .....	496
Building your first Flex Builder application .....	497
Creating a new Flex project .....	497
Working in Design view .....	500
Working in Source view .....	504
Summary .....	506

## Chapter 14 **FLEX BY EXAMPLE** ..... **509**

Planning the application .....	510
Gathering the requirements .....	510
Creating the functional specification .....	511
Designing the UI .....	512
Designing the interaction .....	513
Designing the data and logic .....	514
Setting up the project .....	514
Creating the basic UI .....	516
Creating the containers .....	517

---

Creating basic feed integration .....	518
Installing the XML syndication library .....	519
Creating the Subscription class .....	522
Adding a new class to your project .....	522
Fleshing out the Subscription class .....	524
Testing the Subscription class .....	525
Loading the data .....	527
Allowing Subscription instances to be used for data binding .....	532
Creating the subscriptions list .....	535
Creating the articles data grid .....	538
Populating the Article panel .....	540
Completing the Subscriptions panel .....	542
Allowing users to subscribe to a feed .....	542
Laying out the SubscribeDialog component .....	543
Wiring up the buttons .....	544
Getting the feed .....	547
Allowing users to unsubscribe from a feed .....	553
Saving the subscriptions list between sessions .....	553
Refreshing the subscriptions list .....	556
Automatically refreshing the subscriptions list .....	556
Manually refreshing the subscriptions list .....	557
Completing the Articles and Article panels .....	559
Finishing the Articles panel .....	559
Finishing the Article panel .....	563
Improving the feed reader .....	566
Summary .....	566

**Index .....** **568**
